Safety Tips / Announcements

CONTRACTOR SCAM

Use caution when hiring a home improvement contractor. Follow these tips from the BBB.

- **Watch out for "red flags."** Say no to cash-only deals, high-pressure sales tactics, high upfront payments, handshake deals without a contract, and on-site inspections.
- **Ask for references** and check them out. Bad contractors will be reluctant to share this information and scammers won't wait for you to do your homework. Get references from past customers, both older and newer references. Check them out at bbb.org to see what other customers have experienced.
- **Get a written contract** with the price, materials and timeline. The more detail, the better.
- **Know the law.** Work with local businesses that have proper identification, licensing and insurance. Confirm that your vendor will get related permits and make sure you know who is responsible for what according to your local laws and that your vendor is ready to comply.

As always, call us if you need us - we will be here!

Home improvement scams can start with a knock on the door, a flyer, or an ad. The contractor may offer a low price or a short time-frame. One common hook is when the scammer claims to be working in your neighborhood on another project and has leftover supplies.
